DESCRIPTION

- Ansell's PowerFlex® 80-400 glove is a general-purpose glove that is designed to provide outstanding insulation from cold conditions, as well as high comfort and grip.
- This glove combines a thermal terry loop acrylic liner with a naturally insulating latex coating, ensuring excellent insulation against the cold. This glove provides comfort and protection for the wearer in temperatures down to as low as -30°C, for short or intermittent contact.
- With a terry loop acrylic liner that is bright yellow in colour, the PowerFlex® 80-400 glove offers extra high visibility in low or poor light conditions. This extra visibility brings additional safety for external workers when it's getting dark.

CATEGORY III

Excellent insulation and comfortable handling in cold conditions

PRIMARY INDUSTRIES

IDEAL APPLICATIONS

- Shipping and receiving
- Refuse collection
- Refrigeration and cooling plants
- Perishables warehousing
- Public maintenance
- Outdoor construction work
