

Technical data sheet 3642

Specification Swivel chair high

Dimensions in mm	Backrest:	H:	800-870
		Seat:	H: 410-520
		W:	490
		D:	400
	Total:	H:	1400
		W (no ArmR):	520
W (ArmR):		710	
D:		430	
Packaging data	Weight:	kg	21,82
	Volume:	m³	0,28

Basic equipment

Benefit

Backrest	Mesh design black	The light mesh backrest is breathable and fixes the point of support individually depending on the user. The upright sitting posture can be encouraged by the lumbar support.
Seat	Shaped foam mesh	Better long-term seating comfort with ideal support. The mesh seat distributes the bodyweight evenly, avoiding pressure points.
Gas lift	Gas lift with steel case and 110 mm lifting capacity.	Seat height setting to adapt the seat height to different body sizes. Seat height setting from 410 to 520 mm.
Mechanism	Synchron mechanism. The seat and backrest move synchronously, the chair follows the movement of the user. The movement can be fixed at any desired angle. The counterpressure of the mechanism can be adjusted by a handwheel.	Constant homogeneous support for the back, coupled with an additional lumbar support in every seating position, when in contact with the backrest. Large opening angle of the backrest encouraging excellent upper body blood-circulation, for longer seating periods. Complemented by adjustability of the backrest counter pressure.
	Up and down system in the height adjustment of the backrest. The backrest is height adjustable by 60mm via a notch system.	The point of support can be adapted individually to the user, this ensures an optimum support of the back and encourages upright sitting. The blood can circulate and the spinal column is ideally supported.
Base	Polypropylene base, Ø 640 mm, black	Very stable.
Castors	Double castors, soft	For hard floors
Warranty	2 years exchange warranty.
