- · Better for your wallet and your planet

Create the right light for your home

• Perfect for decorative fixtures

Highlights

Incandescent-like warm white

This bulb has a color temperature of 2700K, providing you with a warm, tranquil atmosphere, perfect for relaxing. This 2700K light is ideal for home lighting design

Replaces luster incandescent

With its beautifully shaped design and familiar dimensions, this is a contemporary lighting, LED luster. The perfect sustainable replacement for traditional incandescent lusters.

Instant On

No need to wait: Philips LED light bulbs provide their full level of brightness immediately they are switched on. Just by turning the switch, your room is at full brightness. There is no slow starting or waiting.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps protect the environment.

Perfect for decorative fixture

Contemporary lighting in Philips LED lustres for use in decorative fixtures such as

chandeliers, ceiling fans, vanity strips, and post lights.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Learn about light

Color temperature: light can have different color temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energizing light. CRI: the color rendering index (CRI) is used to describe the effect of a light source on color appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures colors are shown as true and natural.

Specifications

Bulb characteristics

- · Shape: Luster
- Cap/fitting: E14
- Dimmable: No
- Voltage: 220 240 V
- Wattage: 5.5 W
- Wattage equivalent: 40 W

Power consumption

- Energy efficiency label: A+
 Power consumption per 1000h: 6 kW h

Light characteristics

- Light output: 470 lumen
- Color: Warm White
- Color temperature: 2700 K
- Light effect/finish: Warm White
- · Color rendering index (CRI): 80
- Starting time: < 0.5 s
- Warm-up time to 60% light: Instant full light
 Application: Comfortable light
